

REMARKS

Claims 7-25, 29, 30 and 40-81 are pending in this application. By this Amendment, the specification is amended to correct informalities. No new matter is added. Entry of the amendments to the specification is respectfully requested in view of the following remarks.

The Notice of Allowance states that claims 7-25, 29, 30 and 40-81 are allowed. Applicants appreciate the allowance of these claims and amend the specification to correct informalities.

The amendments to the specification are needed because the Means for Solving the Problem section had reference numbers and symbols that should have been removed during prosecution. The amendments were not presented during prosecution because this section of the specification was not objected to by the Examiner. Entry is proper because the amendments require no further search and consideration and place the application in better form for publication.

In view of the foregoing, Applicants respectfully request entry of the amendments to the specification.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

Mario A. Costantino
